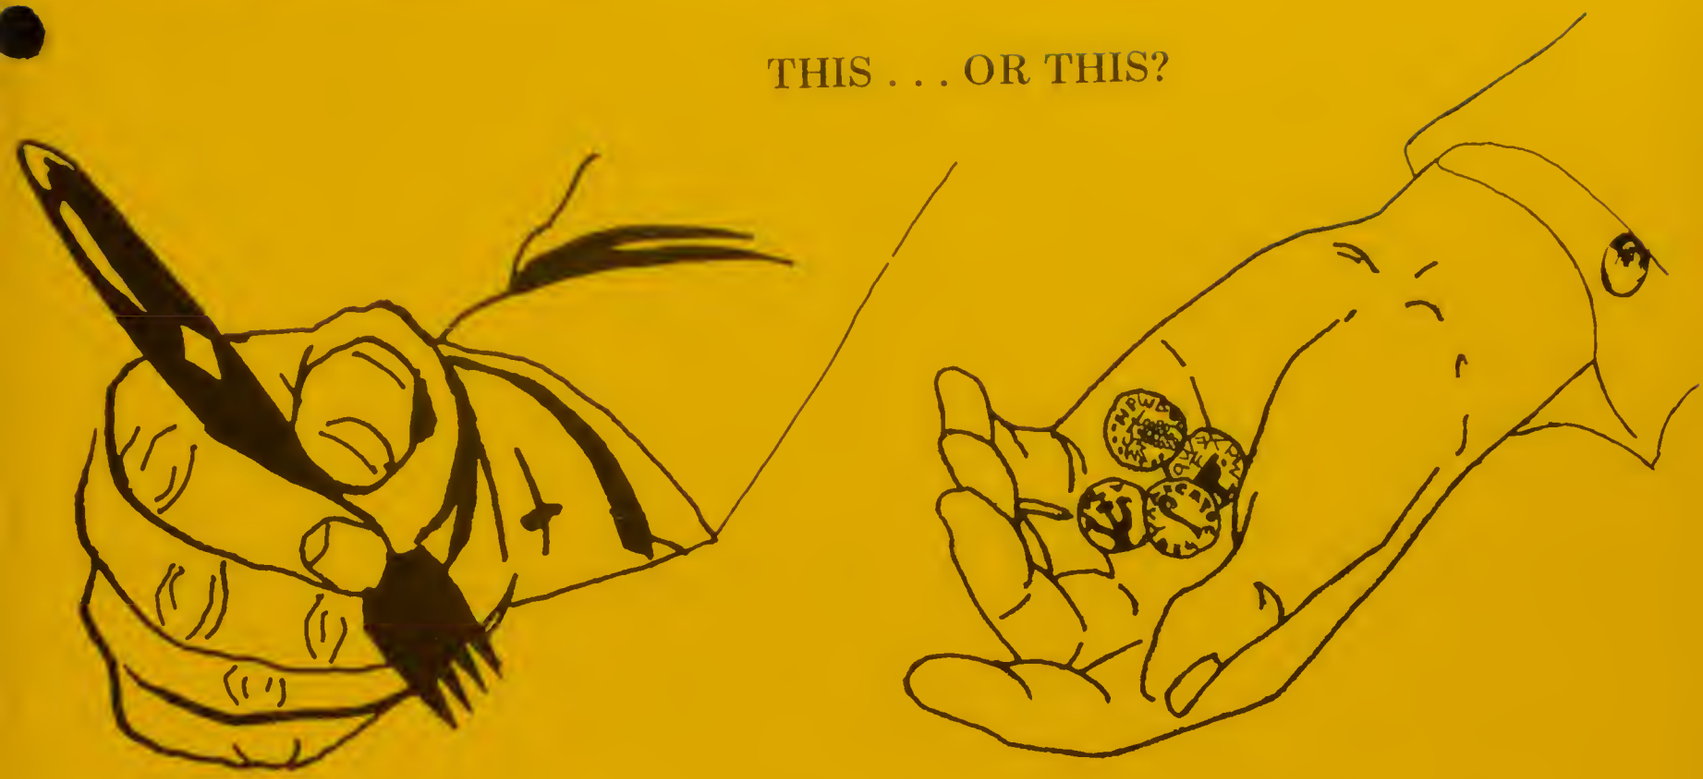
Biblical Numismatic Society Offering #29

THIS . . . OR THIS?



## Do you realize that for as little as the price of one restaurant meal a month you can acquire genuine 2000 year old coins of Bible Days!

Dear Friend,

I have been a coin collector for almost 30 years. Some of my coins cost hundreds or even thousands of dollars . . . and yet I received no greater thrill than when I acquired my very first genuine ancient Biblical "mite" for about $15.00. Yes . . . here was a coin inscribed in the language of the Patriarchs . . . that was used in the time of the Maccabees . . . Jesus and the Apostles . . . and the last ancient Jewish hero — Simon Bar Kochba.

In the intervening years since I bought my first Bible coin, gasoline has gone up by 400%, cars have more than tripled in price, and yet many genuine 2000 year old coins of the Holy Land are still available at small prices. Even the rare silver Shekels have failed to keep pace with other major collectibles. Why? Mostly due to the difficulty in locating nice material with the certainty of obtaining absolutely genuine ancient pieces. But that is precisely one of the reasons why the Biblical Numismatic Society was created! If you have not yet obtained at least one Bible reference coin from us you are missing out on a unique experience. These ancient artifacts offer a closeness to all of our heritage that is impossible to duplicate in any other manner!

There are several approaches possible to the collecting (and investing in) the fascinating Coins of the Bible Days. You have no excuse for not starting now . . . before all of these artifacts are stored away permanently in collections and museums around the world. What better way could there be to bring those early days of Judeo-Christian history into your home . . . especially to interest youngsters in their heritage.

Every coin we send to you is guaranteed genuine . . . and the prices will be surprisingly reasonable. Any coin that does not please you may be returned . . . and you may discontinue the program at any time.

I urge you to return the no-obligation order form in the enclosed postage prepaid envelope, and let our experts send your first genuine Biblical coin selection. Because you are a valued member of the BNS, the coins will be sent on approval; you don't pay until you have examined your genuine 2000 year old bronze and silver coins in the comfort of your own home. You risk nothing!

Think . . . you can do this for as little as the price of a single restaurant meal a month. That meal is soon forgotten, but your genuine Coins of the Bible will keep on giving pleasure to you and your family!

Cordially,

Mel Wacks
